RE: Approaching parents and pupils

Dear Parents, Carers

It has come to my attention that more parents are talking among themselves and taking actions to approach other parents and pupils to deal with any issues or conflict. Please note this is not how the school resolves conflict and can cause extreme bad feeling between families and cause further conflict between pupils in school.

Please can I also reiterate under no circumstances should an adult approach a pupil, they are a minor and it is not acceptable or safe especially if they are not with a parent or responsible adult.

We will always be available to resolve conflict or issues please allow school to be the mediators to ensure our school community is kept safe and respectful at all times.

Thankyou for your support with this matter and the senior leadership team and myself are happy to speak with parents in school whenever it is needed.

Yours Sincerely

Mrs D. Smith
Headteacher
